

PANDUAN INSTALASI

APLIKASI UJIAN PESERTA DIFABEL

VER.30.1.25

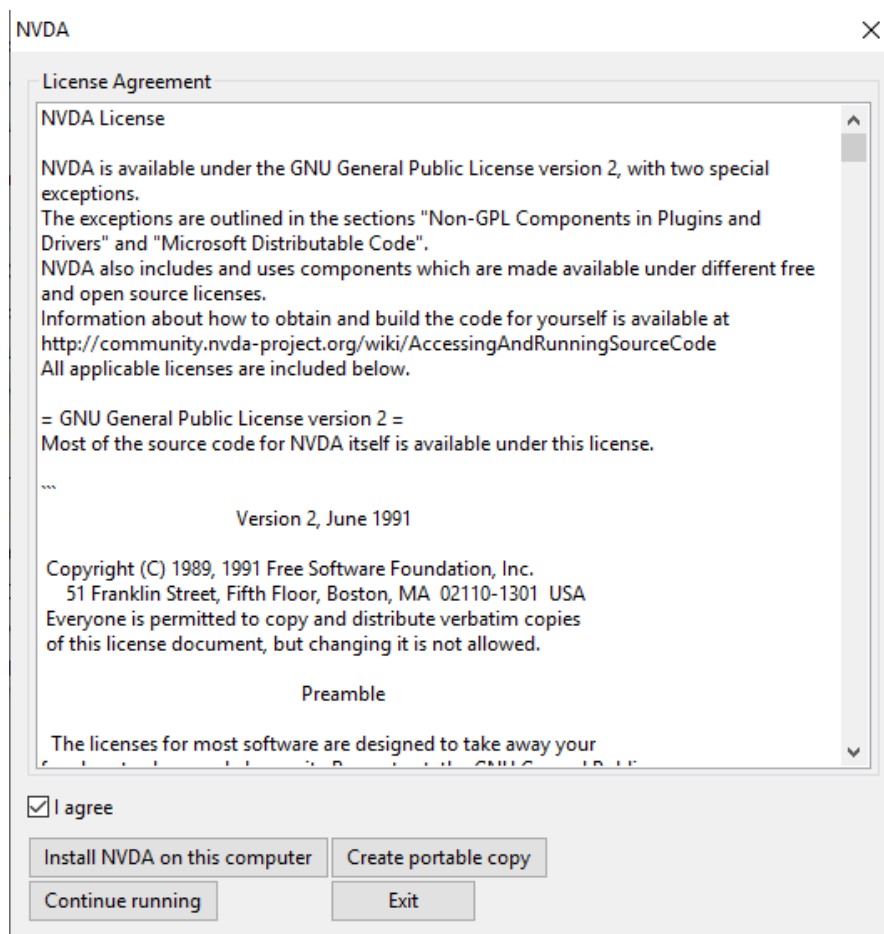

Disusun Oleh :
TIM PENGEMBANG UTBK

Syarat Komputer Ujian

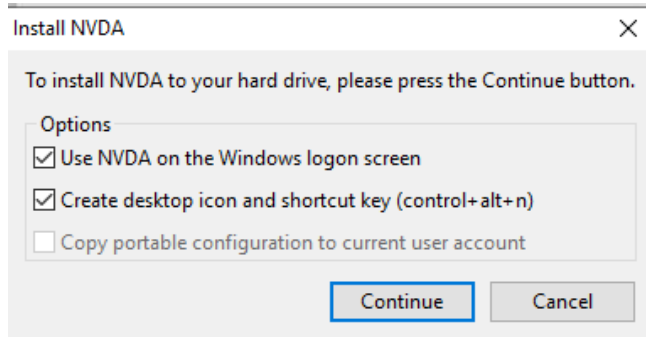

1. Operating System (OS) menggunakan Windows.
2. PC Ujian memenuhi spesifikasi minimum untuk mengikuti ujian SNPMB.
3. Terdapat *browser* Firefox pada komputer.
4. Terdapat blok Numpad pada layout keyboard .
5. Dilengkapi *headset* di setiap PC Ujian.
6. Terkoneksi ke internet (saat ujian memutuskan koneksi internet dan pastikan hanya terkoneksi ke Server Ujian)

Panduan Instal NVDA

1. Unduh aplikasi NVDA pada *link* berikut
<https://utbk-snpmb.bppp.kemdikbud.go.id/files/addon/NVDA.rar>.
2. Buka *installer* dengan nama *file* nvda_2019.1.exe.
3. Pilih I agree, kemudian klik Install NVDA on this computer.

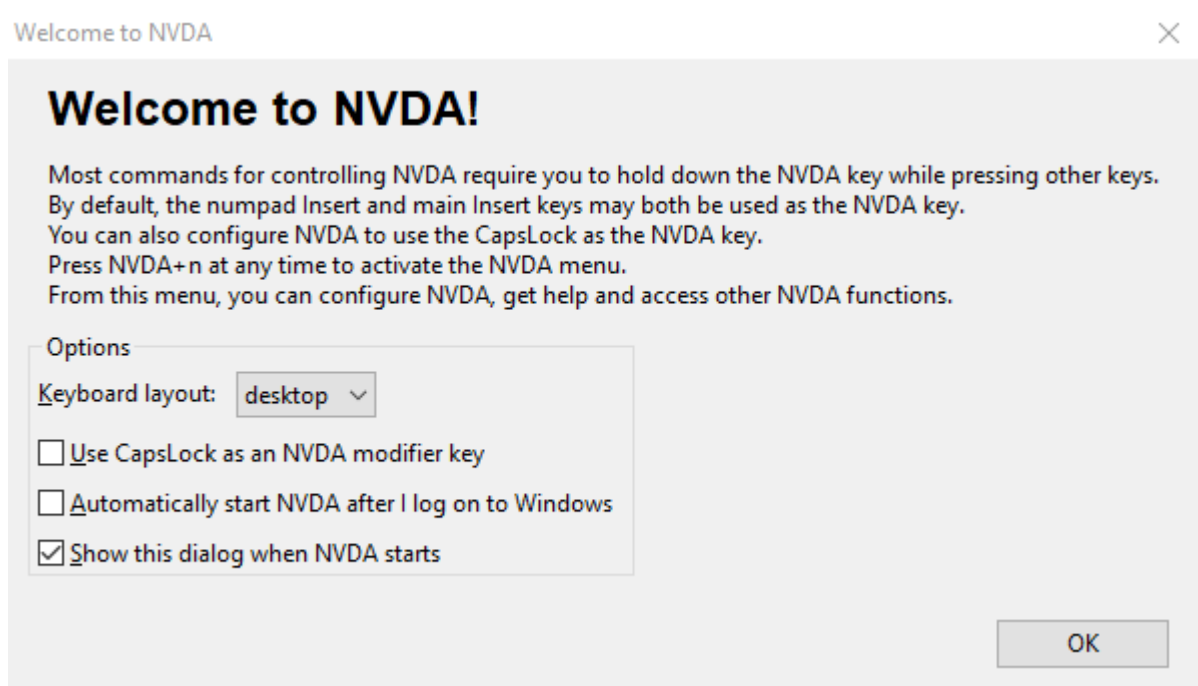

4. Pilih Continue untuk melanjutkan, kemudian akan muncul User Account Control, pilih Yes.

5. Tunggu hingga proses instalasi selesai. Jika sudah selesai, pilih OK.

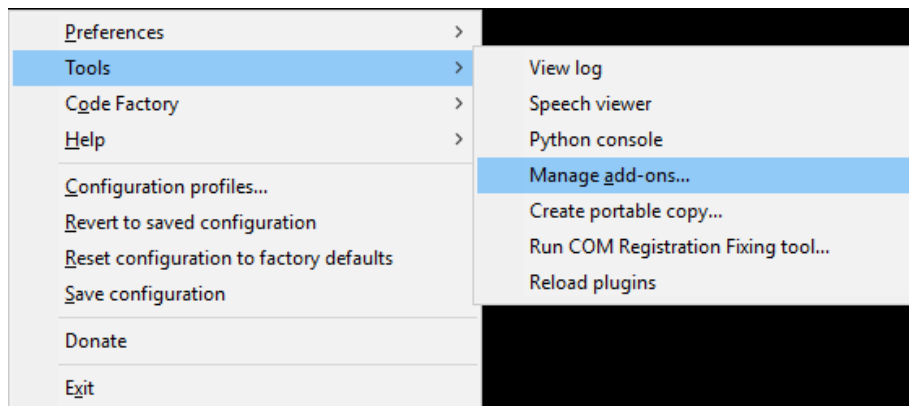

6. Jangan *update* aplikasi NVDA, jika muncul notifikasi terdapat versi baru aplikasi NVDA.
7. Aplikasi NVDA akan mulai kembali dan mengucapkan dialog selamat datang, pilih OK.

Instal suara Eloquence & Vocalizer

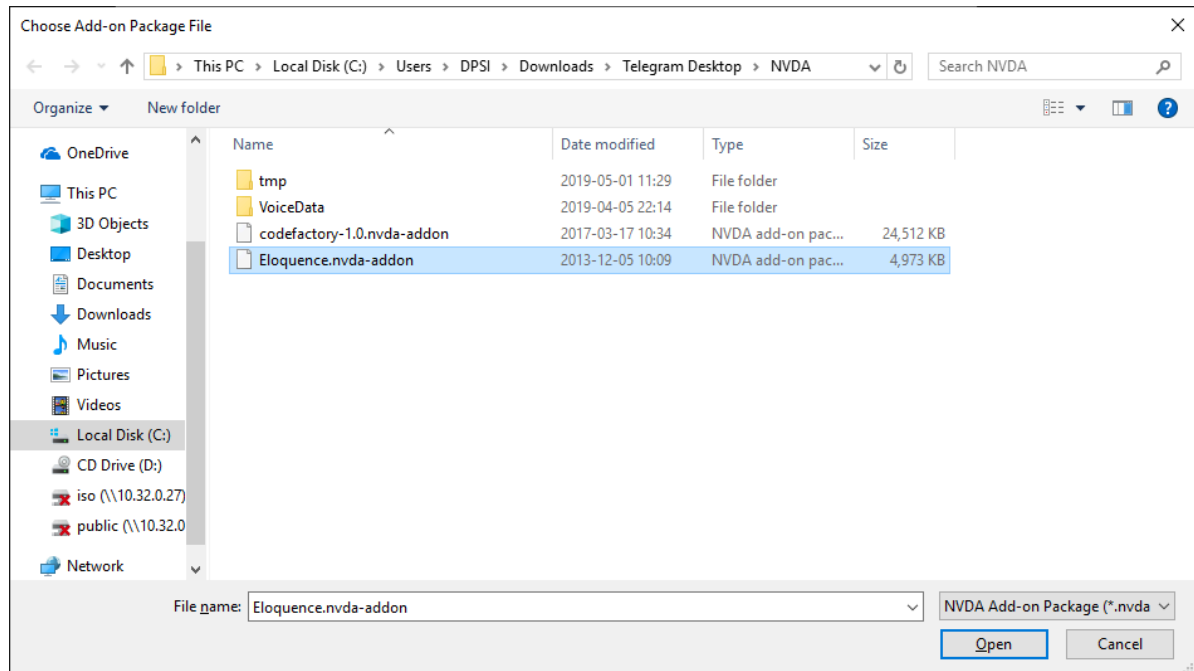

1. Tekan tombol Insert+N, Pilih Tools->Manage add-ons...

2. Klik Install

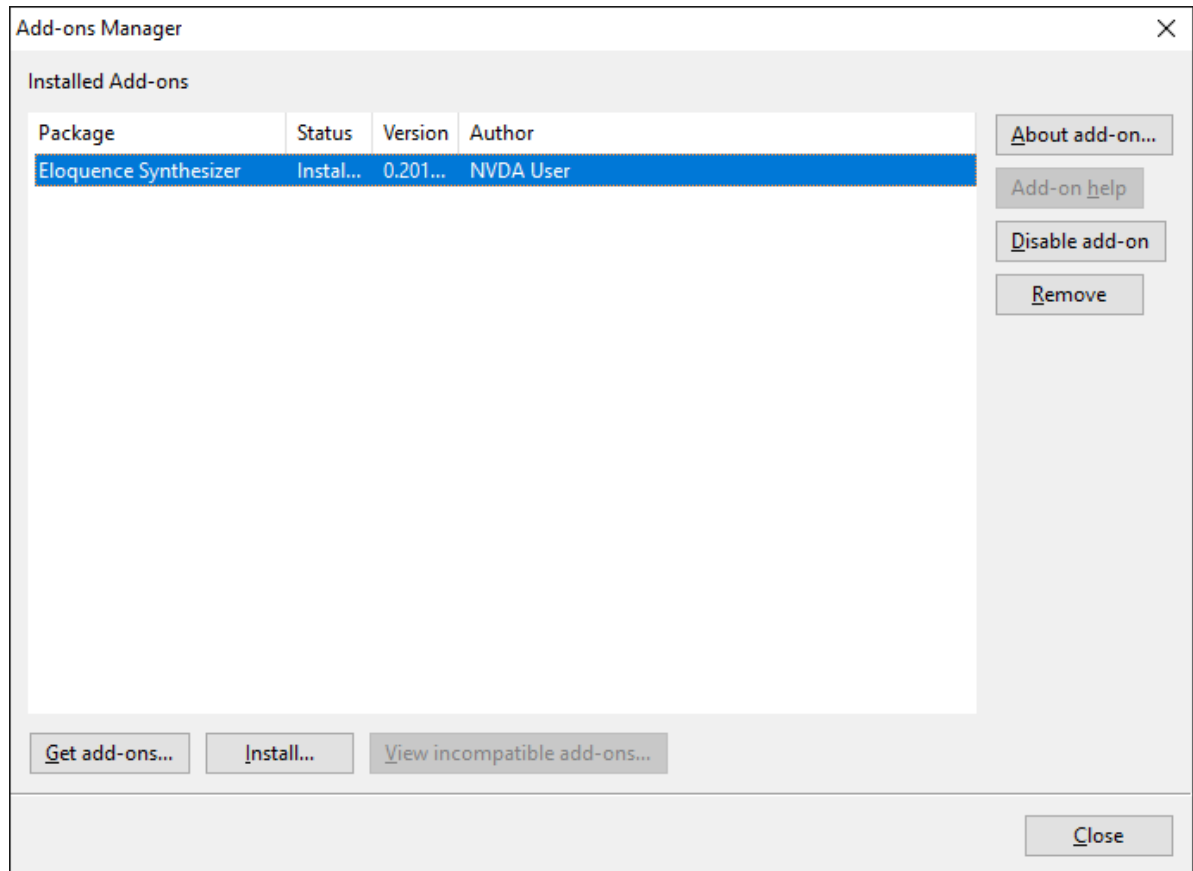

Pilih Eloquence.nvda-addon, kemudian klik Open.

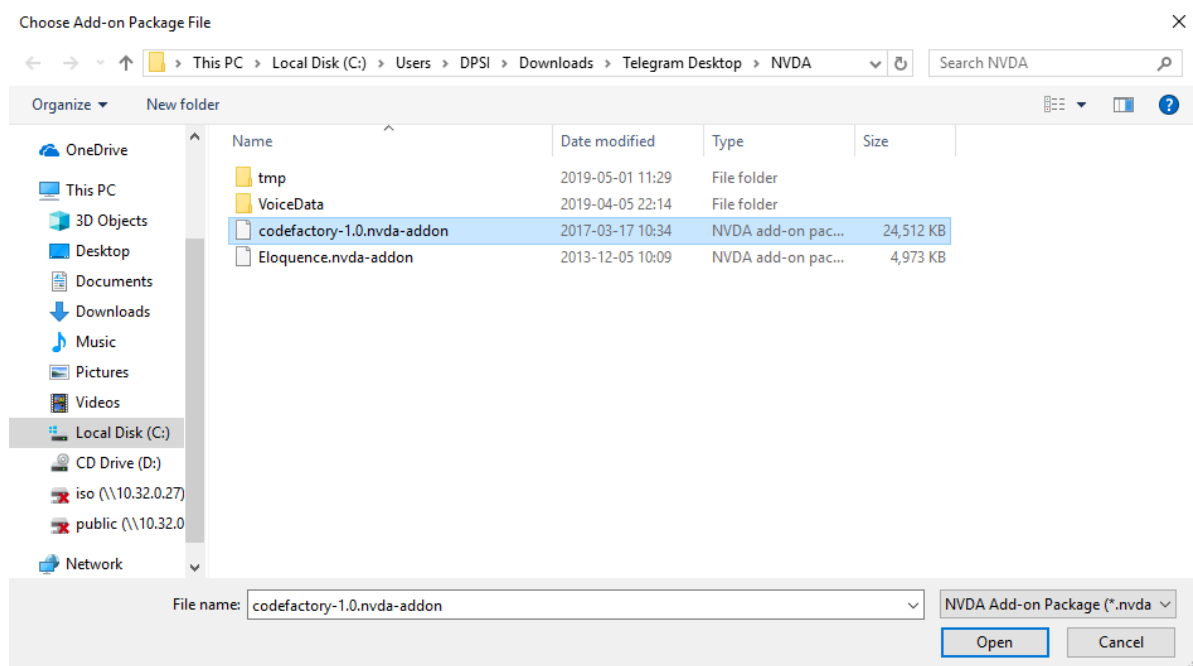

Klik Yes.

3. Klik Instal....

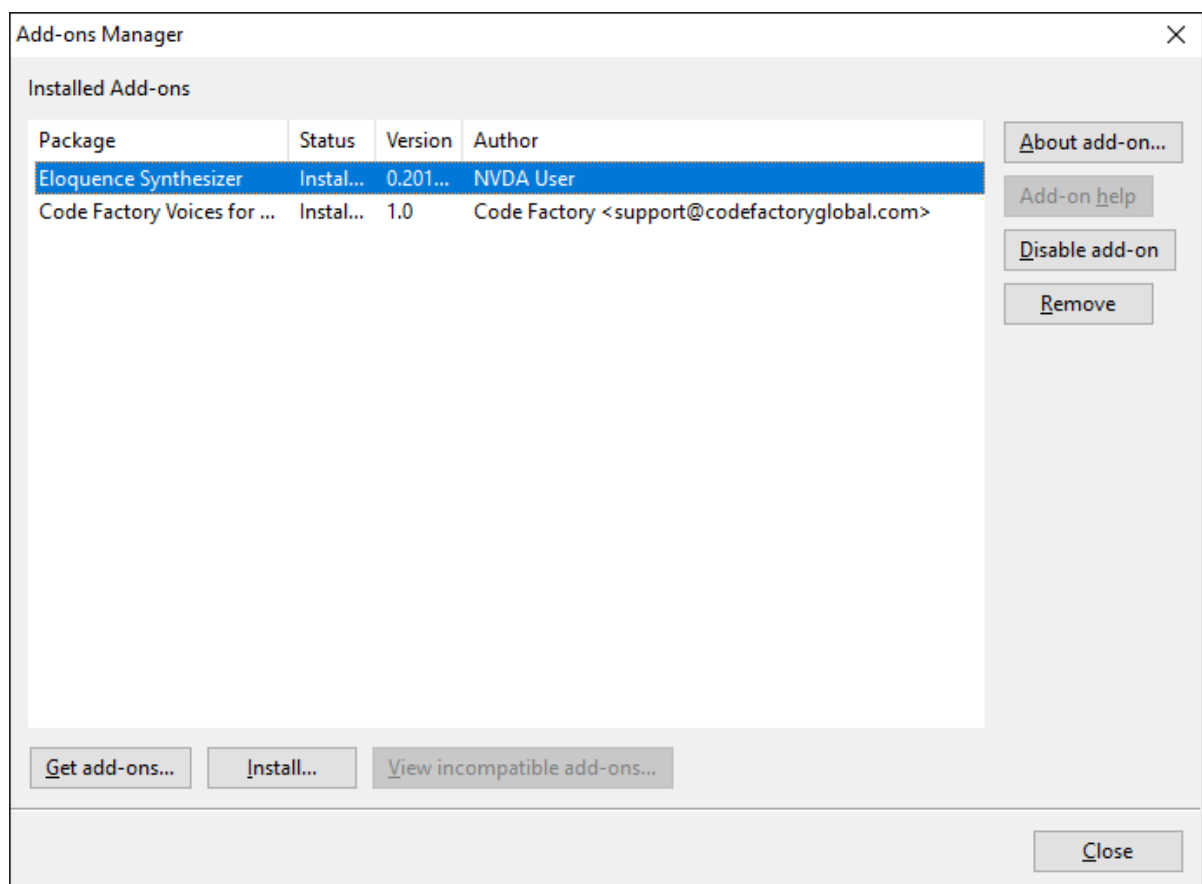

Pilih codefactory-1.0.nvda-addon, kemudian klik Open.

Klik Yes.

4. Klik Close.

Aplikasi NVDA akan meminta untuk melakukan *restart*, klik Yes.

Restart NVDA

5. Untuk menginstal suara, tekan tombol Insert+N, Pilih Code Factory->Code Factory Vocalizer.

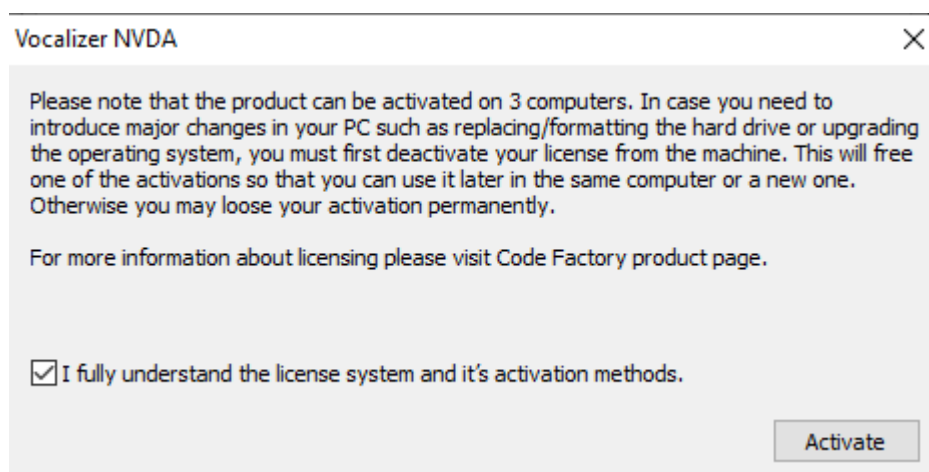

6. Klik Enter Key.

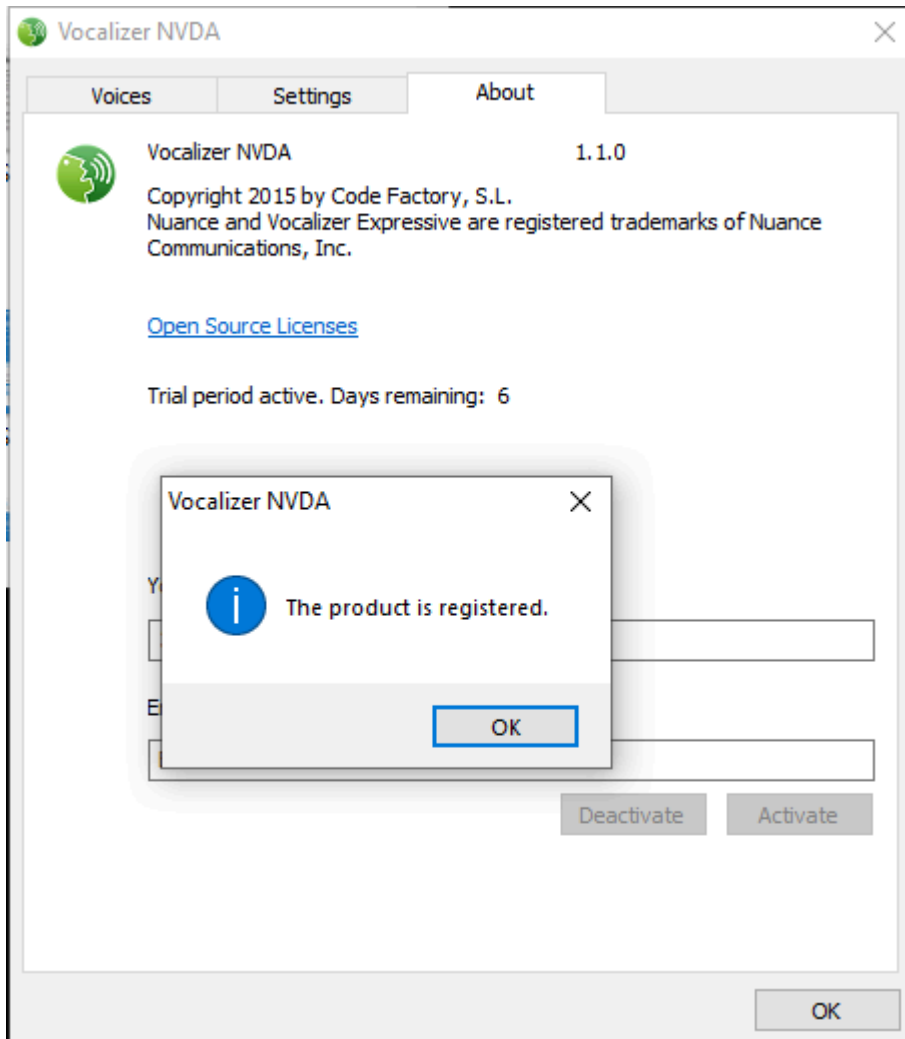

Kemudian masukkan license key yang sudah di kirim ke email kortik pada box Enter Activation Key, pilih Activate.

7. Ceklis I fully understand the license system and it's activation methods, kemudian klik Activate

8. Setelah berhasil diaktivasi klik OK

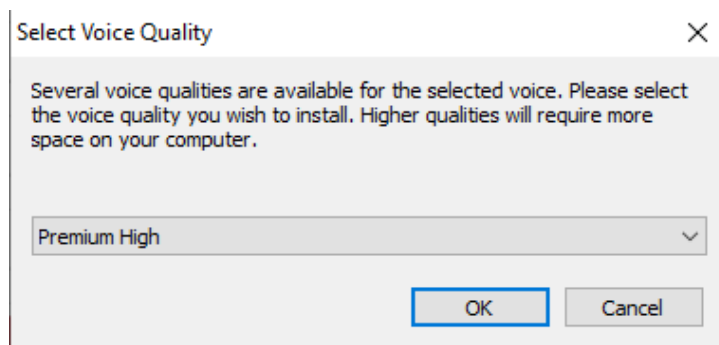

Kemudian klik OK, untuk menutup aplikasi Vocalizer NVDA.

9. Pada tab Voices pilih Indonesian (Damayanti), klik tombol Install.

Pilih Premium High, kemudian klik OK.

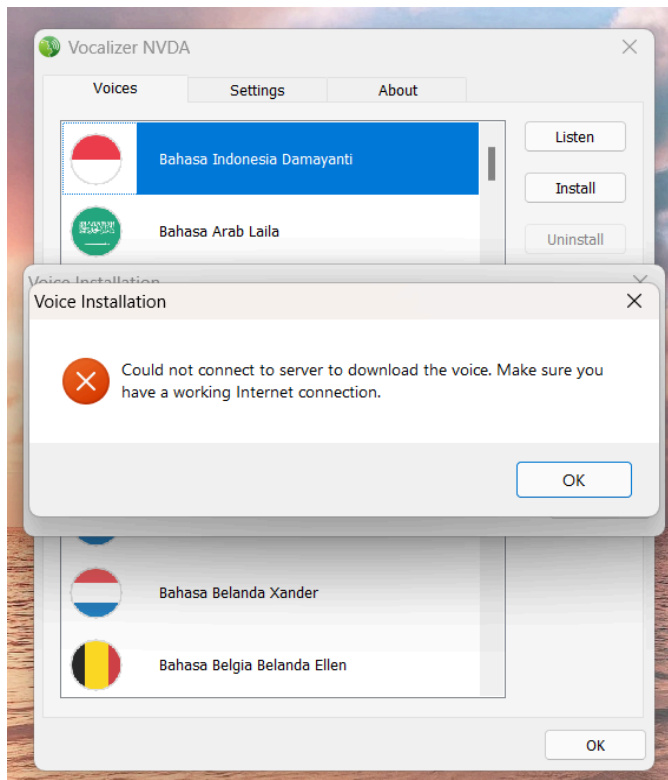

Aplikasi akan mendownload *voice* Indonesian Damayanti.

10. Setelah selesai instalasi aplikasi akan melakukan *restart*, klik OK.

11. Jika proses download *voice* Indonesian Damayanti gagal, seperti dibawah ini

Klik Ok, lalu keluar atau exit dari aplikasi NVDA.

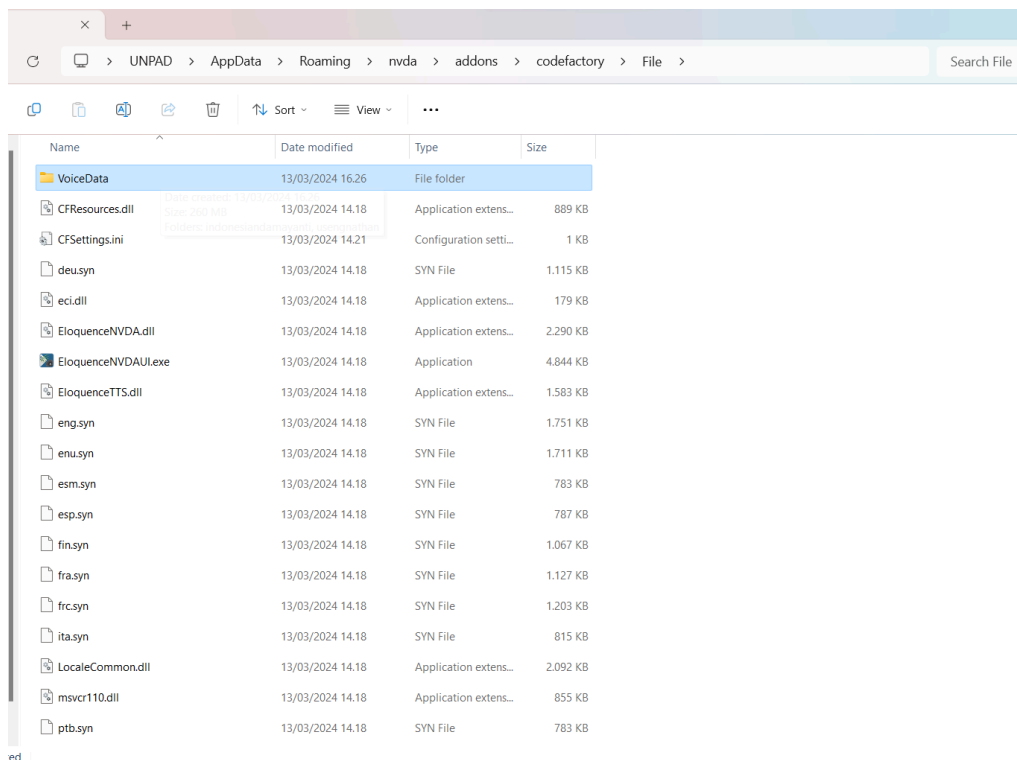

12. Pada hasil ekstrak file NVDA.zip, salin folder VoiceData

Name	Date modified	Type	Size
tmp	31/01/2024 15:10	File folder	
VoiceData	31/01/2024 15:10	File folder	
codefactory-1.0.nvda-addon	17/03/2017 10:34	NVDA add-on pac...	24.512 KB
Eloquence.nvda-addon	05/12/2013 10:09	NVDA add-on pac...	4.973 KB
MathPlayerSetup.exe	30/03/2019 11:52	Application	5.587 KB
nvda_2019.1.exe	26/03/2019 12:41	Application	23.524 KB
vocalizer-Damayanti.dic	01/05/2019 11:40	txtfile	3 KB

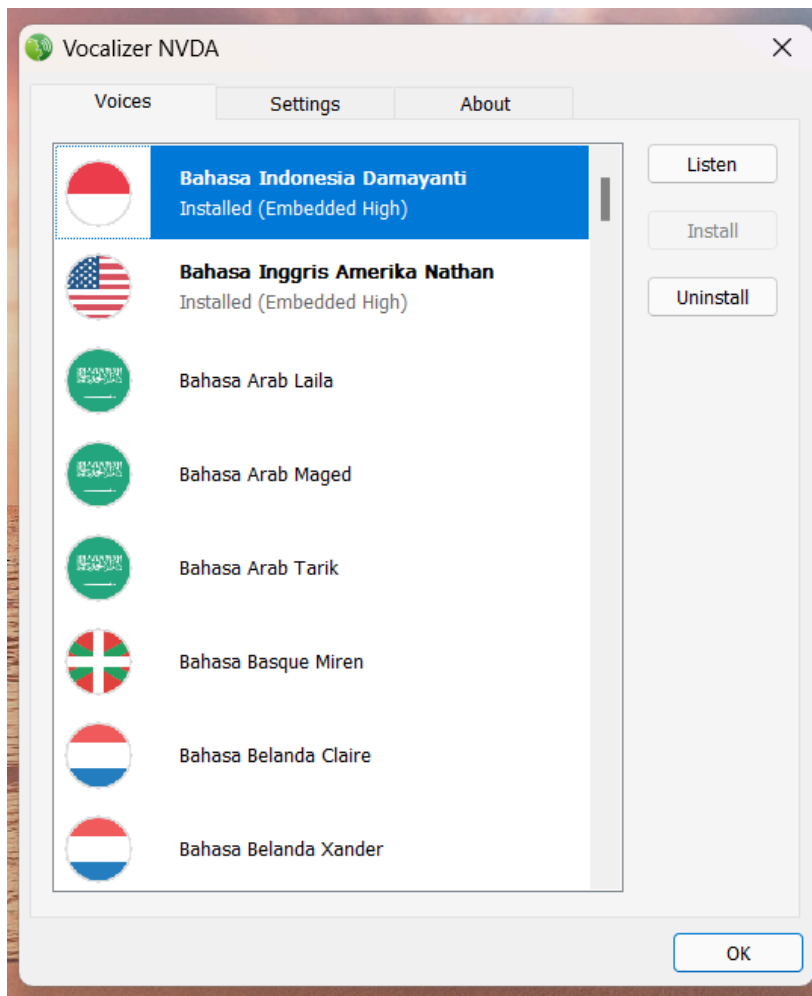

13. Pada fitur pencarian Windows, buka Explore NVDA user configuration directory

Kemudian buka *folder* addon\codefactory\File. Tempel *folder* VoiceData.

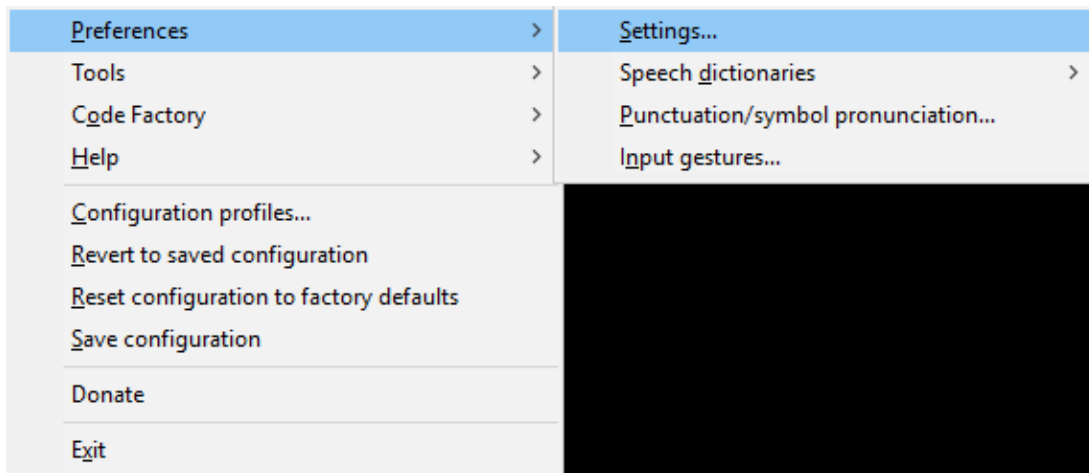

14. Buka kembali Aplikasi NVDA, kemudian pada tab Voices pilih Indonesian (Damayanti), pastikan tombol Install sudah tidak aktif.

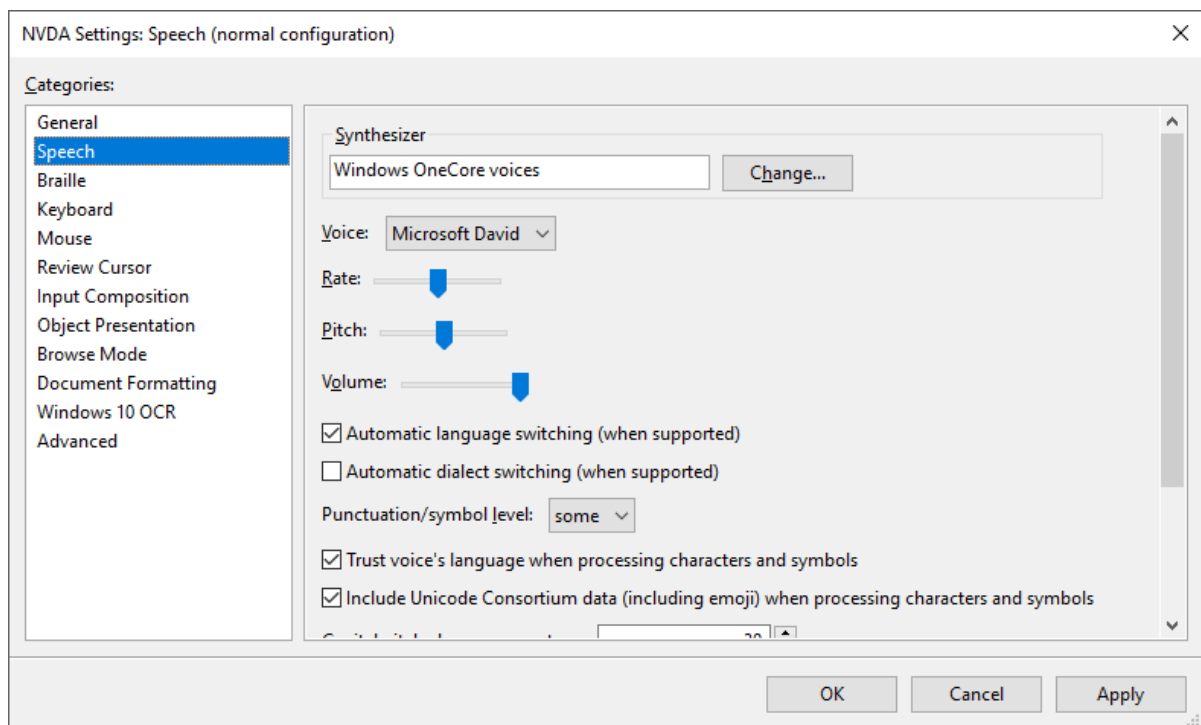

Ubah Suara (Bahasa Inggris / Indonesia)

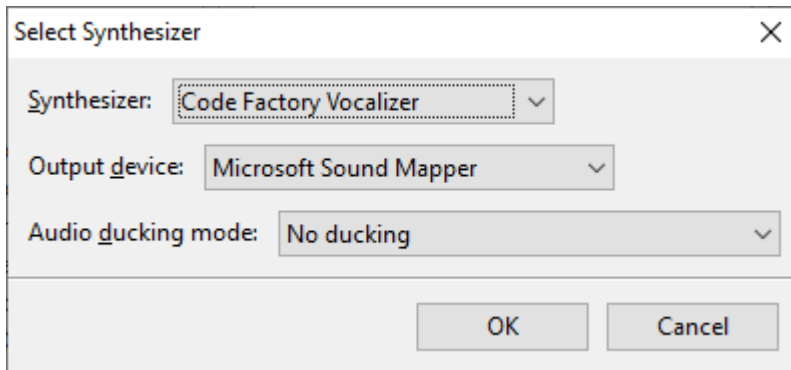

1. Klik tombol Insert+N, Pilih Preferences->Settings...

2. Pilih tab Speech, klik tombol Change....

3. Pada kolom Synthesizer pilih Code Factory Vocalizer, Kemudian klik OK.

4. Pilih tab Keyboard, ceklis box caps lock.

5. Klik OK untuk menutup menu NVDA Settings.

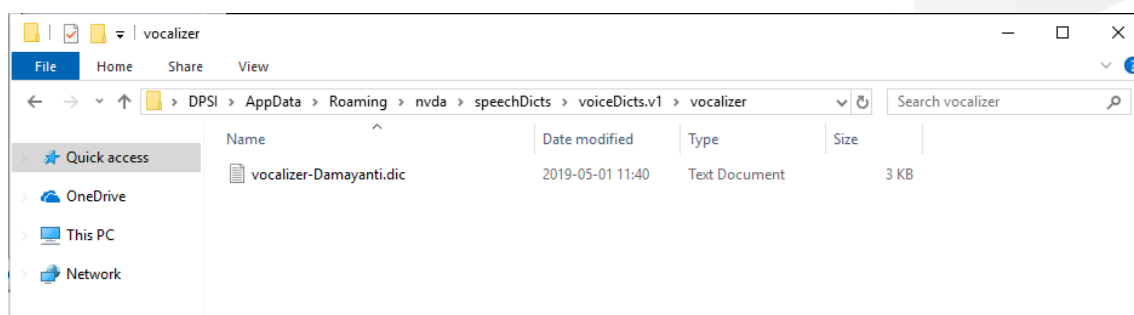

6. Pada hasil ekstrak file NVDA.zip, salin file vocalizer-Damayanti.dic.

Name	Date modified	Type	Size
tmp	2019-05-01 11:29	File folder	
VoiceData	2019-04-05 22:14	File folder	
codefactory-1.0.nvda-addon	2017-03-17 10:34	NVDA add-on pac...	24,512 KB
Eloquence.nvda-addon	2013-12-05 10:09	NVDA add-on pac...	4,973 KB
MathPlayerSetup.exe	2019-03-30 11:52	Application	5,587 KB
nvda_2019.1.exe	2019-03-26 12:41	Application	23,524 KB
vocalizer-Damayanti.dic	2019-05-01 11:40	Text Document	3 KB

7. Pada fitur pencarian Windows, buka Explore NVDA user configuration directory

Kemudian buka folder speechDicts\voiceDicts.v1\vocalizer. Tempel file vocalizer-Damayanti.dic.

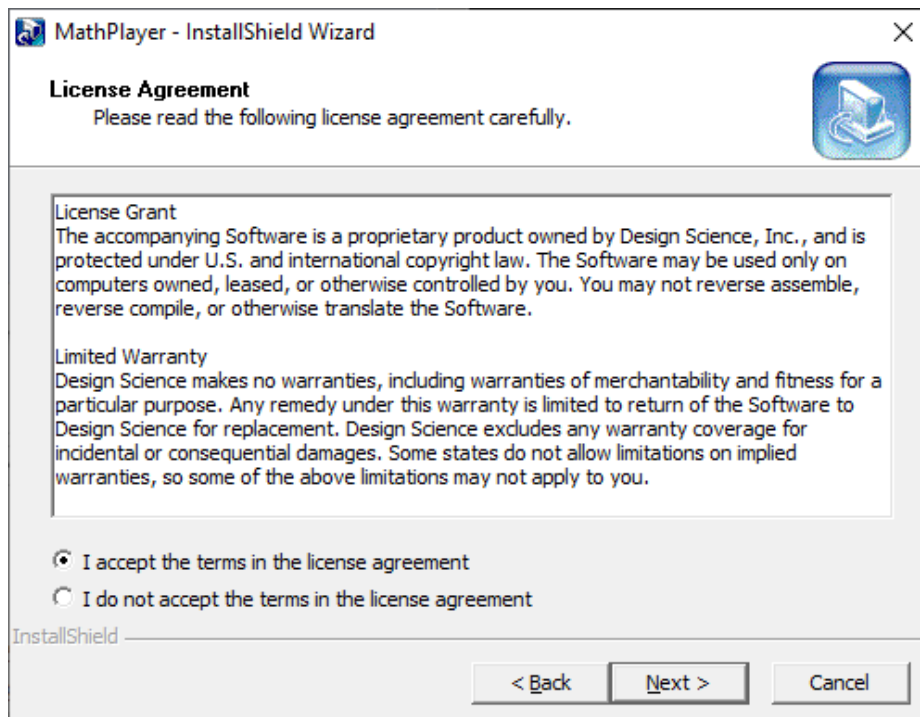

Instal MathPlayer

1. Double klik file MathPlayerSetup.exe, kemudian akan muncul User Account Control pilih Yes.

2. Pilih I accept the terms in the license agreement, klik Next.

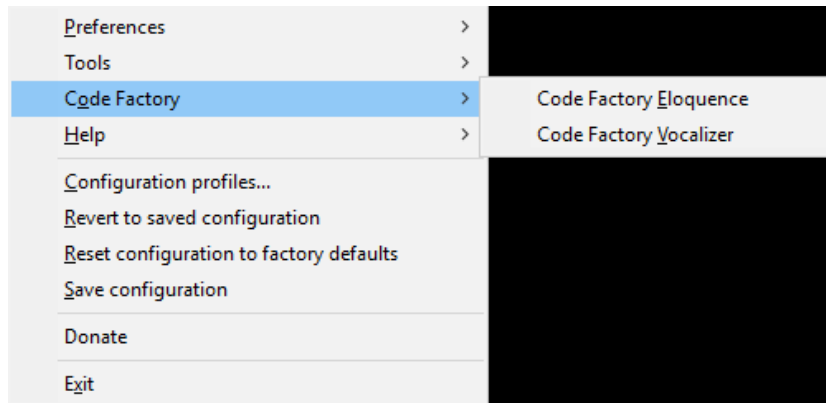

3. Setelah instalasi selesai, pilih Yes dan klik OK.

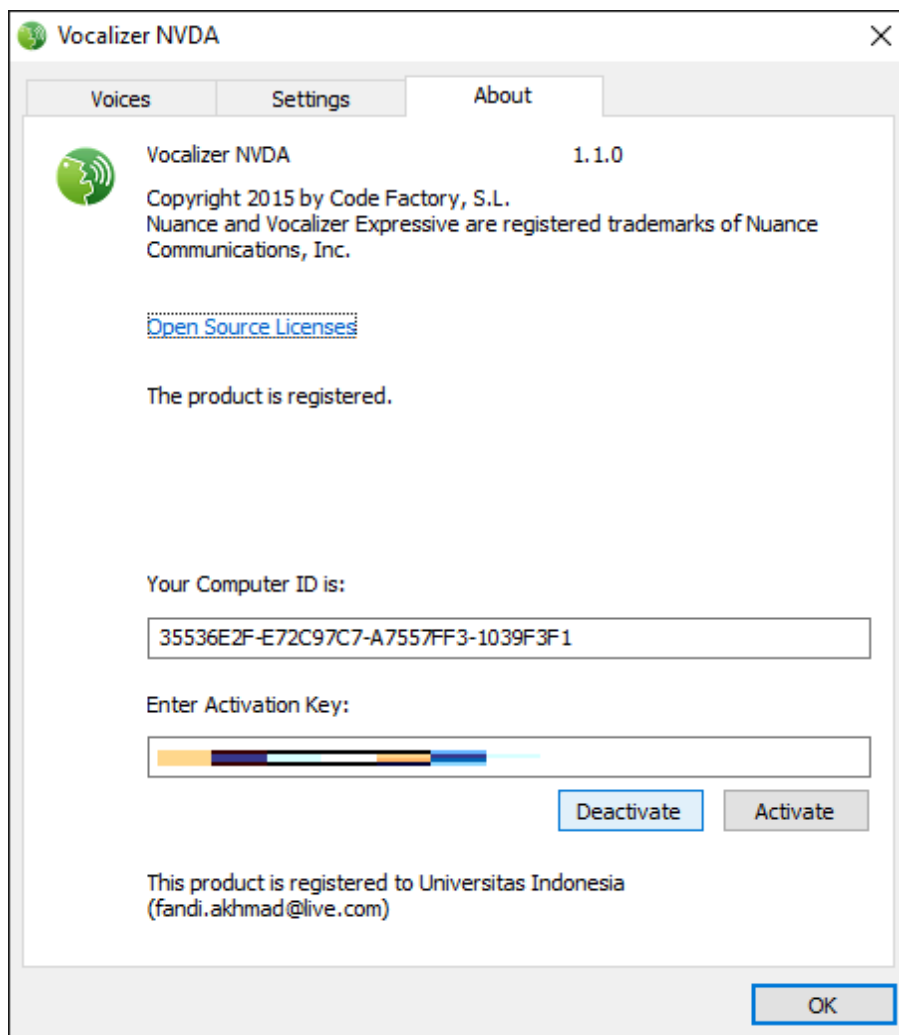

Deactivate Lisensi Aplikasi NVDA

Deactivate License (Jika Ujian Sesi terakhir Selesai)

1. Tekan tombol Insert+N, Pilih Code Factory->Code Factory Vocalizer.

2. Pilih tab About, klik Deactivate

Pilih Yes.

3. Pilih Yes. Klik Ok.

4. Klik Ok untuk minimize aplikasi NVDA.
